# Who we Are?

---

Sinetheta Engineering Group Ltd.—a 100% Ghanaian-owned electrical engineering firm with three decades of powering Ghana and Liberia with reliable electrical engineering solutions.

We are fully incorporated in Liberia as a locally owned entity.

## What We Do?

To be the leading electrical engineering firm, fueling growth and empowering generations.

Over the years, as a second-generation engineering firm, we have grown into a global and sustainability-focused brand without ever compromising on the excellence that has been our hallmark.

**30**  
Years

### 30 Years of Establishment

With 29 years of experience, we have consistently demonstrated our commitment to quality, excellence, and strong partnerships in the engineering industry.

**\$2M**

### Valuation

Valued at approximately \$2M, Sinetheta is eager to expand across the African region, focusing on supporting the engineering and infrastructure development of multiple African economies.

# CORE VALUES

## Respect

We treat others as we want to be treated.

1

## INTEGRITY

We uphold what is good and right consistently, in every situation.

2

## SAFETY

We have each other's backs ensuring that we remain out of harm's way in all our activities.

3

## EXCELLENCE

We never compromise on quality, regardless of the circumstances.

# Our Core Service Divisions

## Project Division

- Electrical Wiring Installation Services
- Electrical Consultancy Services
- Solar (PV) Installation and Post Installation Support
- Equipment Protection Installation Services
- Substation Design and Management, and more

## Commercial Division

- Wholesale and Retail of
  - Solar Accessories
  - Electrical Accessories
  - Mechanical accessories

## Training Division

- Solar Installation Training
- CEWP, CEWI Training
- CTVET proficiency I and II
- CCTV Installation
- Sustainable Financial Modelling

# Service Capabilities Scope

## Government Agencies

We deliver expert technical consultation and services to government agencies, fostering institutional development and driving progress in the fields of electrical engineering and sustainable energy.

## Residential Clients

Empowering homes with innovative electrical engineering — for a cleaner, more sustainable tomorrow.

## Commercial & Industrial Facilities

We specialize in advanced electrical systems for industrial and commercial facilities — from energy audits to system upgrades — ensuring reliability, compliance, and peak performance.

## The African Market

Driven by our mission to serve Africa, we have expanded beyond Ghana and are proud to be making an impact in Liberia—marking the beginning of our broader continental footprint.

# Competencies & Capabilities

## Engineering Excellence

- Over 30 years of experience in delivering end-to-end electrical and solar engineering solutions.
- Expertise in grid-tied, off-grid, and hybrid solar installations.
- Proven track record with utility-scale projects and industrial clients.

## Renewable Energy Solutions

- Design and deployment of clean energy systems for hospitals, banks, and commercial facilities.
- Customised solar solutions to reduce operational costs and carbon footprint.
- Pioneering hybrid systems that ensure energy reliability and efficiency.

## Technical Competence

- Highly skilled engineers, technicians, and project managers with global certifications.
- Strong focus on safety, quality assurance, and compliance with international standards (IEC, NEC).
- In-house design and simulation capabilities using PVsyst, AutoCAD, and other advanced tools.

## Project Management

- Robust project planning, procurement, and execution frameworks.
- Ability to scale projects across multi-site locations with decentralised solar infrastructure.
- Integrated logistics and after-sales support system.
